

Soundless, camouflaged & even

An Innovative Design Concept
to conceal air conditioning units

BARRISOL CLIM

Ever experienced hot and cold spots throughout your space?

Airflow issues are among the most common HVAC problems. Time to say goodbye to your cassette/ split ACs, blocked vents and leaky ducts for good!
Barrisol introduces CLIM- a luxurious yet sustainable solution that provides unparalleled comfort whether heating or cooling your home, enhancing the look of your space by making it look smarter and improving the overall cooling distribution. Let's see how CLIM helps keep your spaces look cleaner.

With its unique and patented open shape,
Barrisol Clim is designed to circulate air either by blowing

A
or by suction

B
between the plenum
space and the rest of
the room

C
The solid version c of the
unit allows you to prevent air
passing through certain walls.

Managing technical functions in one unit

Heating and cooling

Area ventilation / Free cooling

Acoustic and/or luminous membrane

Option to integrate sound or
projected video

Unparalleled comfort for enhanced well-being

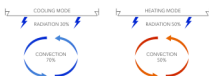

Quiet

Acoustic
absorption

Heightened system response
time allows the unit to reach
the desire temperature quickly

No draught

Thermal Distribution of the system

Powerful and Economical

Uses between 5 and 10% less energy
than standard air-conditioning

Environment friendly: AAA Cold and
AAA Hot performance, according to
the ISO 7730 standard
